In *Reading Together*, Frankenstein's enthusiasm for igniting children's love of reading is infectious. Her strategies are practical and actionable, and her book recommendations are a wonderful resource."

— Jeff Wetzler, Teach For America

Parents and educators who use this book will be raising children who love to learn... the most important outcome may not just be how many books children have read, but how many conversations they've had about them."

— Milton Chen, Ph.D. | Executive Director,
The George Lucas Educational Foundation
