- Victim healing process, last year in COVID by end of March entire team was working remotely, 8k victims of violent crimes, victim compensation has paid out 1.4 million, majority of outreach, virtual through zoom. Overview: team of 43, or 45 as of today, 25% are interns before joining, Lisa, was an intern herself before coming into the office, they come from a place of being victimized, I view our team as experts, team is pretty diversified, cultural sensitive, and 11 languages of interpretation, an array, and it's really important for our team to get that information out. To give a breakdown of how we do our work, we have an advocacy team, our felony, child abuse, human trafficking, elder abuse, domestic violence, juvenile, mass casualty, SF was one of the first to roll out the mass casualty, 3 or more homicides, work in center, and now it's statewide, provide services to families who have been impacted by these. Response to victim services, crisis. We invite you all to do training with our advocates. A few more pieces of information, cases are referred through victim services initiated from a client, make assessment and assign to an advocate those are for charged and uncharged cases as well. Community based referrals, special victims units, every morning we review cases that happened the night before, and contact the victim within 24 hours, campus sexual assault, red zone, and we have a MOU with each University, 1 in 5 statistic will be assaulted as a freshman, we provide training an event we do every year to help prevent that. We also do a vision zero collaboration with the goal to end traffic related deaths (pedestrians). We work closely with our victims and provide them with the services that they need. Marcy's right video, we'd like to share with you. Please share widely, it's just to preserve the rights of victims their rights to due process, free of harassment or abuse, guarantees that victims have a voice, so that we can help them heal their trauma, victims compensation fund that is state funded that provides victims expenses, you must have a police report to get compensated or refunded and we have a team of 7 specialist that will help you fill out the paperwork. If you are denied we have an emergency fund, and last year we paid out over 58k last year and it helps, help them meet their needs so that they can heal. Priscilla: is a part of the elder abuse, and domestic violence (team of 6). First is collaboration, with outside agencies, when we are referred to a survivor, we do outreach with consent, we collaborate with law enforcement, with special victims unit, trafficking, child abuse, sexual abuse, we also work closely with caregivers and adult protective services, SF housing authority, meet survivors in the community, meet survivors where they are at. Slides: Provide court updates, if case is charged, provide court escort support if a survivor needs to testify. We are able to assist, and coordinate. Macy's rights, which are survivors or victims rights, there are 17 rights, the bill was passed in 2008. 1. Survivors are treated fairly and with respect. 3. Prioritizing safety of family, bail amounts, another right of restitution, those are some examples of the rights. We make sure to provide. Slide: State program of victim compensation board, there is a list of specific compensations, and in order to apply, application can now be done online. If I am working with a survivor that doesn't have access to a computer I can help, there is a maximum amount, unfortunately cannot be used for fraud, or for property loss. Criteria is that survivor needs to cooperate and not have been a part of the crime occurring and have up to 7 years to apply. The program will look at all things and the state makes the final decision if it's approved or not but we try our best to help with that. Restitution for charged cases, losses and compensation pay for the request, and it is up to the judge, some of the things could be mental health, property, but our advocates work with survivors as well. Restraining order assistance, some of the different agencies, we work closely with elderly, and CROC. How can survivors can be safe, and how can we help with

that. We used to be located at 850 Bryant, but now we are located at 350 Rhode Island Suite. End of presentation: any Questions: Bob: I want to emphasize that you have to have a police report. Lisa: We will take non-charged cases, so please remember. District 5 small pilot program: for broken windows. Broken window project: I will reference contact info in the chat: kitty.fong@sfgov.org

- Mary Louise: Stay away order for minors/children. Please call the police, so that it is documented and for safety.
