balance out populations but surrounding districts are impacted and does matter all over the city. One of the things that happen in redrawing, when people come and can establish criteria on the website, community of interest, you live in the same area, or go to the same place of worship (churches) if locations are established we do not want to break it up. Part of the voting rights act, we cannot dilute, and be especially protective, misused in the voting process, protect their interest. Voting strength is strong in African American populations. In 2000, district elections approved, late 2001 roughly have first district elections. District lines drawn along with census. For example, D5 Fillmore, Haight, Japantown, the area of Westside Courts, Booker T. was taken out, Japantown was taken out, Plaza East was taken out, Freedom West, taken out. When the first district elections happened in SF, to represent D5 was a person we had never heard of. Maybe 8 years, we didn't know who he was. In 2010, when we dealt with redistricting some of the areas were put back but not all. In terms of keeping communities of interest kept together, tomorrow, Friday, at 2:30pm the redistricting taskforce will be meeting for D10. The people of SF will have to live with it for the next 10 years. I am almost 80. You outta have input. You outta be talking about this. We have people submitting maps to us everyday. All meetings are virtual, having trouble getting senior inputs. We were going to have at least one in person meeting for each community but due to COVID they cannot be held. This all needs to be done by April. We are hoping to meeting in person in March. The second largest African American is Bayview. African Americans is number 3 in. Asians first, then Latino. Tendorloin is first in African American population. They want to add Tendorloin to D5. Letting you know the kind of ways people are looking at maps and redistricting. If we do this wrong, it would be so easy to guarantee that you couldn't get a Black Supervisor elected because our population is so small. We need to be real careful, about what people tell us. Especially those most troubled. Britt: Thank you for the history lesson, and piece of that. Other than maps, do we write letters? How do we advocate to get our voices heard. Rev. Townsend: You can write letters, make phone calls, it is real important to make appearances in the virtual meetings. Go to website, so far D5, D6, & D10 have met. Everything has to be done transparently and publicly. Tamara: Where can I find the whole taskforce board, dept of elections website and find the redistricting. arnold.townsend@sfgov.org revtword@hotmail.com (415) 407-6359.
